

Prepare for a urology second opinion

Use the spaces below for your own notes. Bring questions to the appropriate professional.

1. The decision I want another opinion about:

2. Current recommendation, and why it was made:

3. Records to send, receiving office, and confirmation:

4. What remains uncertain about the diagnosis?

5. Options to compare: benefits, risks, recovery and alternatives:

6. Safe timing, and what should prompt earlier contact:

7. Reasons the recommendations agree or differ:

8. Next action, responsible clinician, and follow-up date:

Ask your treating team about safe timing. Do not postpone urgent evaluation to complete a worksheet or arrange another opinion.
